<b>Senior Software Engineer</b> <i>Tech Solutions Pvt. Ltd.</i>	Jun 2023 - Present <i>In Office</i>
<ul style="list-style-type: none"><li>• Led a team of 5 engineers to develop a scalable e-commerce platform using React and Node.js, increasing user engagement by 30%.</li><li>• Implemented CI/CD pipelines with Jenkins and Docker, reducing deployment time by 50%</li><li>• Collaborated with cross-functional teams to design and implement new features, boosting customer satisfaction by 20%."</li></ul>	

## PROJECTS

**E-commerce Platform Development:** Designed and developed a full-stack e-commerce platform using React and Node.js. Integrated a payment gateway and implemented secure user authentication. Optimized database queries, reducing page load time by 40%.

**HealthCare Appointment Booking System:** Developed a full-stack web application for booking healthcare appointments using React and Node.js. Integrated third-party APIs for real-time availability and booking of healthcare professionals. Implemented a secure user authentication system using JWT and managed session data. Deployed the application on Heroku, ensuring scalability and monitoring performance with New Relic.
